

CANTEEN NEWS

The school canteen operates as a service to children and staff, by providing lunches and counter sales each day of the school week.

It is school operated; school council oversees operations and employs a Food Services Manger who reports directly to the council.

- **We comply with current legislation and operate a Food Safety Program**
- **Our menu follows Education Department guidelines and the “Go For Your Life” strategy; and offers a variety of foods from the healthy lunch to a canteen style treat**
- **Our smiley face system encourages families to select foods along nutritional lines.**
- **Canteen operates each school day offering lunch orders and counter sales.**
- **For lunch orders send along 2 bags one for hot food one for drinks and snacks.**
- **Clearly write child’s name, grade and food required on each bag.**
- **Enclose money in one bag, fold, place in second bag, money will then be secure.**
- **Lunches are made to order only and hot food is not available over the counter. Lunches are collected from the canteen in crates by monitors and eaten in the classroom.**
- **Children can purchase snacks, icy poles and drinks over the counter at morning recess and lunchtime.**
- **The canteen must be profitable to remain open, it is not subsidised by school council. All profits are directed to support the schools fundraising efforts.**
