

# SUNSMART POLICY

## PURPOSE

The purpose of this policy is to encourage behaviours at Overport Primary School to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

## SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

## POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available on the free SunSmart app, or at [sunsmart.com.au](http://sunsmart.com.au) or [bom.gov.au](http://bom.gov.au).

Overport Primary School has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

### Shade

Overport Primary School will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- Tree shade and sails over play equipment.

- Shade sail areas across the school.
- Sails where students congregate in the eating area
- Some outdoor lesson areas
- popular play areas

When building works or grounds maintenance is conducted at Overport Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

### Sun protective uniform/clothing

Overport Primary School recommends that from mid-August to end of April, and whenever UV levels reach 3 and above, students come to school wearing sun-protective clothing such as:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts

Overport Primary School school's uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely-woven fabric
- polo shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts

From 15<sup>th</sup> August to 30<sup>th</sup> April, all students **must** wear a sun protective hat that shades the face, neck and ears for all outdoor activities. Hats may also be worn for all outdoor activities outside of the August to April time period, by parent or student choice.

Staff and students are encouraged to wear hat styles that protect the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket.

Students are required to wear a school hat or another hat style that protects the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket. Students who are not wearing appropriate protective clothing or a hat will be asked to play in a specific shade area to ensure protection from the sun.

### Sunscreen

Overport Primary School encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to manufacturer's instructions for the Australian regulatory guidelines for sunscreens (ARGS)

Overport Primary School staff will encourage and remind students to apply sunscreen before going outdoors.

At Overport Primary School students are welcome to attend sick bay or ask their teachers to access sunscreen. Staff and students who may suffer from allergic reactions from certain types of sunscreen

are encouraged to contact sick bay attendant to implement a management plan to reduce the risk of an allergic reaction at school.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

## Sunglasses

Overport Primary School encourages students and staff engaged in outdoor activities to wear sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

## Curriculum

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Overport Primary School will address sun and UV safety education as part of HPE health component and classroom programs when appropriate to do so.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.
