

## Coughs, Colds and Asthma

Coughs, colds and the flu are one of the most common triggers of asthma. The common cold is caused by an upper respiratory tract infection and is a common illness for children and adults in Australia. As we approach the colder months, here are some tips to keep in mind to prevent and reduce the spread of coughs, colds and the flu:

- Avoid coughing and sneezing on or near others and wash your hands thoroughly to prevent the spread of disease.
- If your child is not feeling well, it is recommended that they stay home and rest, to reduce the spread of infections and to speed up their recovery process.
- Everyone should have the annual flu vaccination to ensure they are protected from this disease. You or your child may be eligible for the free flu vaccination. Details about who is eligible can be found [here](#) and can also be determined by your doctor.
- Prior to purchasing any medications or herbal and natural remedies, you should seek the advice of your doctor or pharmacist as some medications can react with asthma medications. Such as Aspirin, Ibuprofen/Naproxen (non-steroidal anti-inflammatory medications), Beta Blockers tablet and eye drops (used for high blood pressure and glaucoma), and ACE inhibitors (used to control blood pressure).

**Stay warm this winter!**

## Parent and Carer Asthma Information Sessions

The Asthma Foundation of Victoria is funded by the Federal Department of Health to provide free asthma education sessions to groups of parents and carers. These sessions can take place at the school or at a location of your choice. The session runs for approximately one hour and covers:

- Asthma triggers
- Signs and symptoms
- Asthma action plans
- Asthma medication
- Asthma First Aid

If you are interested in attending a parent and carer asthma information session, please contact The Asthma Foundation of Victoria to arrange a session on 1800-ASTHMA or [sdoherty@asthma.org.au](mailto:sdoherty@asthma.org.au)

For more information, please contact The Asthma Foundation of Victoria on 1800 278 462 or [www.asthma.org.au](http://www.asthma.org.au)
