

Good afternoon everyone,

I hope you had a lovely Easter. Thank-you for all your support over the last few weeks as we transition into remote learning.

As previously mentioned by Julie, technology (iPad/Laptop) will be available to borrow from the school to help support online learning. For devices to be functional 'off site' we need to make a number of adjustments, this will take our technician several days. Once this process is complete, we'll inform our community via email of available collection times. Please note an Equipment Loan Agreement will be required to be signed upon collection of your device.

Regards,

Ricky Joyce - Assistant Principal
