

Dear Parents and Carers,

I am very thrilled to share this year's NAPLAN results which the students achieved. They should be very pleased with their efforts. While this is only one measure, it is satisfying to acknowledge all the hard work being done through our 'home and school partnership' to help the children reach their potential.

It is also a time for us all to celebrate what both teachers and parents have been able to achieve throughout the disruption of the last 18 months. These results are a direct reflection of the quality teaching and learning being undertaken to support your children from Foundation to year 6.

<b>Relative growth from year 3 to 5.</b>		
Reading	40% achieving above expected level	Which is significantly above state
Spelling	49% achieving above expected level	Which is significantly above state
Writing	20% achieving above expected level	
Numeracy	56% achieving above expected level	Over double state achievement.
Grammar & Punctuation	24%	

<b>Students achieving in the top two bands</b>						
Reading	Year 3	63 %	which is above state	Year 5	61%	significantly above state
Spelling		42%			56%	significantly above state
Writing		43%			17% in Top 2 bands but with 90% at or above expected level.	
Numeracy		38%			59%	significantly above state
Grammar & Punctuation		67%	which is above state		41%	which is above state

What this doesn't show is the work being done to support students wellbeing. Our wellbeing Fridays are part of the process to keep the children connected in an enjoyable way. Our wonderful School Captains and House Captains have put together this gorgeous video to promote wellbeing for all our students. Please share with your child/ren and consider the message within it. <https://fb.watch/7RcexnhEvh/>

Keep up the amazing work you are doing with your child/rens's teacher to ensure they continue to grow and develop.

Kind regards,

Julie Gleeson.
