

RACV 2016

Today 34 students in years 4 – 6 have travelled to Maryborough in central Victoria to compete in the RACV Energy Breakthrough Challenge, pushcart event. The 34 students, in four teams, have been training and preparing for the event since term 1 and are more than ready to challenge other schools from across Victoria. The event would not be possible without the support of the Overport School community. Thank you particularly to the

families of our competing students for helping their children attend training and for accompanying them to the event. We would like to thank our 2016 sponsors, Forticode, Stephen Towner, PSSA, Higgins Coatings, Microflite Helicopters and EBS Doors. Good luck to all competing students and congratulations for the effort and hard work you have put into your preparation.
