
* *Minasan Konnichiwa* (Hello everyone) *

* Last Friday 8th September, seven of our students participated in the annual
* Frankston Japanese Speech Contest. A large number of students from six
* primary schools around the Frankston region competed in this year's contest.
* Ellie (Year one) and Jackson (Year two) entered in the lower primary school
* division, Ashlee (Year four), Jennifer (Year four), and Hannah (Year six)
* represented in the upper primary school division. Joe (Year four) and Saya (Year
* one) challenged in the Japanese environment division, and Joe came 1st and
* Saya came 2nd in the division. *Omedetoo* (Congratulation) Joe and Saya for your
* achievement! All the students made a great effort to memorise their Japanese speech by practising at school
* during their play time and continue studying at home. I often see them helping and encouraging each other to
* master the speech. I felt very privilege to be able to work with these highly motivated, committed students, I
* listening to their beautiful Japanese speaking during the practices, and to watch their great courage to
* perform their Japanese speech in front of the huge audience in the competition! *Arigatoo* (thank you) for your
* hard work and determination to do your best! I would also like to add my great appreciation to the students'
* families for their support during the evening and their speech practice at home.

* *Arigatoo gozaimasu* (Thank you very much)

* Tomoko Yamashita (Japanese teacher)
